

Course Identification Numbering System (C-ID)

UPDATES: APPROVED COURSES AND TMCs

Presently, **110** CCCs have courses that were granted C-ID numbers; **2967** approved courses - includes TCSU courses (as of 5/21/2013)

TOP 4 Colleges by course submission:

1. American River College (249)
2. Modesto Junior College (242)
3. Fresno City College (232)
4. Santa Rosa Junior College (214)

Welcome:

- College of Alameda
- Evergreen Valley College
- Santa Barbara City College

11 CSU campuses identified **1173** CSU courses as comparable to C-ID descriptors (as of 5/21/13).

367 C-ID approved descriptors in **31** disciplines (including 140 AG)

701 AA-T and AS-T degrees approved in the Chancellor's Office as of 5/29/13

24 Finalized TMCs

A Fond Farewell and Best Wishes for the Future

We would like to take this opportunity to thank Pam Brown Schachter for her outstanding contribution to C-ID. She has tirelessly served the articulation community, faculty members, and students over the past 3 years with C-ID. We offer our sincere appreciation for the positive impact of her partnership and wish her the very best as she retires from C-ID articulation activities.

Future articulation inquiries should be directed to the C-ID AO Subgroup who can be reached using aohotline@c-id.net.

DISCIPLINE STATUS REPORT:

Spring CTE Disciplines Convened: Faculty from Addiction Studies, Allied Health, Automotive Technology, Commercial Music, Culinary Arts and Emergency Medical Services attended two Discipline Input Group (DIG) meetings held in May. The attendees initiated work on descriptors, non-transfer degrees and certificates for those disciplines. Faculty will not be convened until the fall to prepare drafts for vetting.

Model Curriculum: The Spring CTE disciplines focused on the development of C-ID descriptors and model curricula. These CTE disciplines were not selected for convening due to their transfer volume, but due to the volume of certificates and degrees awarded. The faculty were asked if C-ID descriptors and/or model curricula would be of benefit to students in their disciplines. Many disciplines began development of descriptors and model curricula. The generic term "model curriculum" (MC) is also being used for transfer disciplines that are developing MCs (as opposed to TMCs) in disciplines that do not "fit" into the SB 1440 60 + 60 structure. Please see below for updates on the MCs being developed by nursing and engineering.

Agriculture

The TMCs continue vetting until June 30th. Please encourage your faculty to provide feedback.

Art History

The **web** version of ARTH 145 (Art of the Ancient Americas) was corrected to reflect the appropriate prerequisite and advisory courses that were inadvertently reversed. The Word version of the descriptor contained the appropriate prerequisite (none) and advisory (Completion of or concurrent enrollment in English Composition C-ID ENGL 100) language. In addition, C-ID ENGL 100 was appropriately inserted in place of English 1A on the ARTH 110 and 120 descriptor advisories.

Biology

Revised and new Biology descriptors, as well as the TMC, will be posted for vetting in the fall.

Chemistry

The Chemistry FDRG will confer regarding the three Chemistry descriptors that have closed vetting. Any descriptors that require additional vetting will be posted in the fall.

Economics

Vetting continues for the Economics TMC until June 15th. Please encourage faculty to provide feedback.

Engineering

The Intersegmental Curriculum Workgroup (ICW) has accepted the Model Curricula proposed for this discipline. Discussion is underway regarding any potential SB 1440 benefits for Model Curriculum-aligned degrees.

English

The English TMC was updated to reflect the re-addition of a sequence of "Survey of Literature in English" courses under the options for List A

English (continued)

Literature in English is a sequence that combines English and American literature, as well as literature from other English-speaking countries, over a three-course, 12-unit series (each C-ID course descriptor is 4 units). These courses were included in the originally approved English TMC, but because they are less common in the CSU system than in the UC system, they were temporarily removed while the need for them was investigated. Now that a need has been determined, they have been added back to their original place on the TMC and the descriptors for them have been posted. The narrative that accompanies the English TMC has been updated to reflect this change.

Information Systems

TMCs and descriptors continue vetting until June 15th. Please encourage your faculty to leave feedback.

Kinesiology

The Kinesiology FDRG has been discussing the most appropriate approach for the activity/movement courses. We hope to have this issue reconciled in the near future.

Mathematics

Math 955 (Precalculus & Trigonometry) nears finalization by the FDRG.

Nursing

The Nursing FDRG met at the end of May. The Model Curriculum was refined and will post again for vetting in the fall to ensure statewide input.

Film, Television and Electronic Media (Formerly Radio/TV/Film)

The ICW accepted the TMC and it will soon be posted in final form, along with descriptors, on the C-ID website.

Course Identification Numbering System (C-ID)

IMPORTANT INFORMATION

1. In response to feedback provided by the articulation community, the C-ID system is now able to accept course outlines with approval dates of within the last **six** years.
2. As a reminder, these are the members of the C-ID AO Subgroup:

California Community College

Deanna Abma (dabma@ccsf.edu)

Bernie Day (daybernie@fhda.edu)

Dave DeGroot (ddegroot@hancockcollege.edu)

Scott Lee (slee@fullcoll.edu)

California State University

Cathy Beane (Cathy.beane@csulb.edu)

Patty Faiman (Patty.faiman@csun.edu)

Mai Warren (mwarren@fullerton.edu)

CORE & FDRG RECRUITMENT

We need full time CCC faculty members to serve on FDRGs for the following disciplines:

Administration of Justice

Computer Science

Exercise Science

Health Science

Hospitality/Hotel Managements

Philosophy

Social Work

Studio Arts

We need CSU faculty members to serve as COREs for the following disciplines:

Anthropology

Due to course review volume, the following disciplines need additional CSU reviewers:

Art History

Chemistry

English

Elementary Education

Mathematics

Political Science

Theater

Biology

Communication Studies

Early Childhood Education

History

Music

Spanish

Business

Computer Science

Economics

Kinesiology

Psychology

Studio Arts

Please email info@c-id.net if you have CCC faculty recommendations, or are interested in serving!

C-ID FREQUENTLY ASKED QUESTIONS

1. Does a Course Outline of Record (COR) expire once approved for C-ID?

CORs that achieve C-ID designation (approval) do not expire. CORs must be resubmitted when a significant local change (course content; course objectives/SLOs; Prerequisites(s); Corequisite(s); a unit change to less than the descriptor unit minimum) is made or if the C-ID descriptor is reviewed by the FDRG at the five-year cycle and is found to require significant changes. Colleges will be given sufficient time to resubmit their courses if needed. Expiration dates apply only to resubmission periods (conditional or not approved courses) and to TCSU approved courses.

2. How do I submit variable unit CORs to C-ID?

If your COR has variable units, and the lowest unit amount is less than the descriptor requires, your course will not be approved. If the lowest variable unit amount meets the minimum descriptor units then you may submit your course to C-ID by entering the minimum unit amount.

3. Why do some approved courses not appear on the Courses page of the C-ID website?

C-ID approved courses which have effective dates in the future will not appear on the Courses page of the C-ID website until the effective date has been reached. Approved submissions which contain more than one COR (for example a sequence course like Math 900S or potentially a lecture/lab combination like Geog 115), will not appear on the Courses page of the C-ID website until the effective date for all CORs has been reached.

If you have any questions that you would like addressed, send it to us at info@c-id.net and we may include it in our next newsletter!
